

APPENDIX 2 – Total Maximum Daily Load (TMDL) Requirements

Additional permit requirements based on established TMDLs

This Appendix contains the list of all TMDLs in Eastern Washington that include more specific requirements than those found in the permit. Each TMDL lists the potential permittees to which these requirements apply.

Name of TMDL: Selah Ditch Multiparameter TMDL

Location of Original 303 (d) Listings
WA-39-1110

Area where TMDL Requirements Apply:

Areas draining to the Selah Ditch within the jurisdiction of the Permittee and within the geographic area covered by this permit and contributing to the waterbody.

Parameter

Biochemical Oxygen Demand (BOD)
Dissolved oxygen (DO)
Fecal coliform
Temperature

Approval Date

September 25, 2006

Potential MS4 Permittees

City of Selah

Actions Required

1. The City of Selah will submit to Ecology for approval a Water Quality Improvement Plan by January 1, 2010.
2. The City of Selah will complete a survey of illicit connections to the stormwater sewer system by January 1, 2011.
3. The City of Selah will remove all illicit connections to the stormwater sewer system within the city limits by January 1, 2012.
